THE ORGANISERS

The Institution of Engineers (India)

The Institution of Engineers (India) or IEI is the largest multidisciplinary professional body that encompasses 15 engineering disciplines and gives engineers a global platform for sharing professional interest. IEI has membership strength of above 0.8 million. Established in 1920, with its headquarter at 8 Gokhale Road, Kolkata-700020, IEI has served the engineering fraternity close to a century. During this period of time, IEI has been inextricably linked with the history of modern-day engineering.

In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India which has been accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating through its 125 Centres located across the country and 6 overseas chapters. Besides, IEI has bilateral agreements with about 31 international bodies and membership of another 8 international bodies of the developed nations across the globe.

Being recognized as a Scientific and Industrial Research Organisation (SIRO) by the Department of Scientific and Industrial Research, Ministry of Science and Technology, Government of India, IEI promotes the cause of research and development by providing Grant-in-Aid support to undergraduate, post graduate students and PhD Research Scholars of Engineering Institutions and Universities.

SAFETY AND QUALITY FORUM - IEI

Safety & Quality Forum was established by The Institution of Engineers (India) at New Delhi in 2003, to focus on engineering aspects that contribute towards the improvement in Safety & Quality in Engineering Profession. Forum has been actively involved in disseminating knowledge in the field of Safety and Quality for the last more than a decade.

Mission

To create a culture of Safety and Quality, through ethical and professional practices and to promote working environment that leads to the highest level of productivity and sustainable development with optimal use of resources.

Objectives

- The objectives and purpose of SQF are to promote and propagate the concept of SQF and to facilitate exchange of ideas and opinion pertaining to engineering and technology and for that purpose:
- To create awareness of Safety and Quality in engineering operations.
- To assist Governments and local bodies in framing and enforcing rules and codes for safety and quality management systems in engineering sectors.
- To assist private/public sector industrial units in undertaking quality and/or safety audits; and training programme for compliance of laid down rules and codes.
- To develop courses, syllabi and course materials for 'Safety Engineering', 'Quality Management' and 'Reliability Engineering' for different levels of engineering education and recommend the same to educational authorities/institutions.
- To facilitate continuing education programmes, seminars, conferences, workshops and training courses on various aspects of safety, reliability and quality management systems.
- To collaborate with educational institutions, industry and other professional bodies and societies to promote the concepts of quality, safety and reliability.
- To facilitate conduct of training course on Quality Management System and safety aspects.

Chairman's Call

Dear Esteemed Colleagues,

It is with utmost delight and eager anticipation that I extend a heartfelt invitation to all of you for the esteemed 21st Safety Convention, meticulously curated by the Safety and Quality Forum of The Institution of Engineers (India). This distinguished event is scheduled to grace the calendar from September 2, 2024 to September 4, 2024, and will unfold its proceedings at the prestigious Hotel Le Meridien, nestled in the heart of New Delhi.

Under the captivating theme of "Nurture Safety Concepts for Self-reliant India - Issues, Challenges & Way Forward", the 21st Safety Convention aspires to foster a harmonious convergence of minds, uniting Industries, Organizations, Corporations, Individuals and stakeholders alike in a unified mission towards ensuring workplace Safety and fostering Sustainable Growth in the Society.

In our dynamic world, where the pursuit of Self-Reliance intertwines intricately with Safety concerns, it becomes paramount for us to confront these challenges collectively. Throughout the duration of our convention, our discussions will penetrate the depths of the complex interplay between Safety and Sustainability within industries. We firmly believe that the assurance of safety within the workplace transcends mere moral obligation; it stands as a strategic imperative essential for the Sustainable Development and prosperity of our Nation.

The stakes couldn't be higher, with fatalities, injuries, and environmental degradation looming as formidable threats to our collective well-being. Yet, through the cultivation of dialogue, the exchange of best practices, and the cultivation of innovative solutions, we possess the power to carve a path towards a future that is both safer and more resilient for all.

Your esteemed presence and active participation in this convention are not only desired but indispensable as we collectively navigate towards a safer, more self-reliant India. Together, let us embark on this transformative journey, weaving the fabric of a brighter and more secure tomorrow.

Your invaluable physical, technical, and financial contributions, coupled with your active engagement in this noble endeavor, are earnestly sought and deeply appreciated.

Truly yours in safety,

JC Singhal

Chairman, Safety and Quality Forum

Convention : Overview

PREAMBLE

In recognition of the critical intersection between Safety and Self-Reliance within the context of India's journey towards Sustainable Development, the Safety & Quality Forum of The Institution of Engineers (India) proudly announces the 21st Safety Convention on the theme "Nurture Safety Concepts for Self-Reliant India - Issues, Challenges & Way Forward" scheduled to take place during Sept. 2-4, 2024, at Hotel Le Meridien, New Delhi.

This convention will focus on to address the multifaceted landscape of challenges that confront our nation. With the rapid pace of technological advancements and the imperative of infrastructure development, every facet of Country's journey towards Self-Reliance necessitates an unwavering commitment to SAFETY as an indispensable foundational principle.

Indeed, Safety transcends mere Regulatory Compliance; it embodies a moral imperative that forms the bedrock of our societal fabric. In our relentless pursuit of Self-Reliance, we acknowledge that safeguarding the Safety and well-being of our citizens and professionals is not just a priority but an ethical obligation.

This convention serves as a crucible for strategic discourse and action-oriented initiatives aimed at surmounting the obstacles hindering our progress towards a "Safer and Self-Reliant India". From addressing systemic gaps in Safety Regulations to cultivating a pervasive Culture of Risk Awareness and Mitigation, the collective focus will be on forging innovative solutions and resilient frameworks.

It has become imperative to prepare a action plan that not only mitigates risks but also fosters Sustainable Growth and Inclusive Development. Further emphasizing on strategy to propel India towards a future where Safety is not just a priority but an integral component of our nation's journey towards Self-Reliance and prosperity is the key for future generation.

OBJECTIVE

The objective of the 21st Safety Convention is multifaceted, aiming to address :

1. **Identifying Challenges:** To comprehensively analyze and identify the diverse range of challenges that impede the integration of safety concepts into India's journey towards self-reliance. This includes examining regulatory gaps, technological limitations, infrastructural deficiencies, and cultural barriers that hinder progress.
2. **Raising Awareness:** To raise awareness among stakeholders about the critical importance of safety in achieving self-reliance. This involves highlighting the intrinsic link between safety practices, sustainable development, and national prosperity.
3. **Exploring Solutions:** To facilitate discussions and exchanges on innovative solutions and best practices for nurturing safety concepts in various sectors critical to India's self-reliance agenda.
4. **Fostering Collaboration:** To foster collaboration and partnerships among diverse stakeholders including government bodies, industry players, academia, civil society organizations, and international partners.
5. **Empowering Professionals:** To empower professionals and practitioners with the knowledge, skills, and resources necessary to champion safety initiatives within their respective domains.
6. **Promoting a Culture of Safety:** To promote a culture of safety across all levels of society, instilling a sense of responsibility and accountability towards safety practices among individuals, organizations, and communities. A culture of safety is foundational for sustainable development and resilience in the face of challenges.
